ANALYSIS & DESIGN

Business and system requirements analysis
Solution concepts and documentation
BPMN and UML modelling
Mobile UI/UX design
Design testing
Agile / Scrum

TECHNOLOGY

SQL / T-SQL / MS SQL Server
REST API, logs, JSON, XML
Comarch ERP: XL, Altum, Optima
Jira, TFS, GitHub, Figma

AI IN ANALYST WORK

ChatGPT, Claude, Gemini, NotebookLM
Prompt engineering and simple agents
Automation: documentation, Jira tickets and Figma tasks
Concept and UI mock-up prototyping

CERTIFICATES

AI Academy (2026)
UML: Systems Modelling (2025)
T-SQL: MS SQL Server (2024)
BPMN: Process Modelling (2023)
Requirements Engineering (2023)

DARIUSZ MASŁYK

Business & Systems Analyst

Mobile apps · Comarch ERP · Integrations · AI

Business & systems analyst specialising in mobile applications integrated with Comarch ERP systems. I drive analysis from requirements and solution concepts, through documentation and work with developers, to design testing.

EXPERIENCE

Comarch — 2022 – present

Business & Systems Analyst · Comarch Mobile

- Gathering and analysing business requirements and turning them into solution concepts and specifications for the development team.
- Designing mobile app features: BPMN and UML process models, UI/UX mock-ups in Figma, user stories and acceptance criteria in Jira.
- Integration analysis with Comarch ERP (XL, Altum, Optima): REST API, SQL, JSON and XML, log-based diagnostics.
- Driving changes from concept to release: implementation support, design testing and feature acceptance.
- Using AI in analyst work: automated documentation, Jira tickets and Figma tasks.
- Dozens of delivered initiatives for an app with over 10,000 licences, incl. bundle promotions and payment extensions, AI order assistant, app telemetry, offer–order–invoice links.

ALDI Poland — 2021 – 2022

Store Manager

- Managed the store and team based on sales and operational KPIs.
- Planned work schedules, onboarded new staff and developed the team.
- Controlled deliveries from the chain and external suppliers, stock levels and losses.
- Maintained chain standards, merchandising and customer service quality.

SPECJAŁ Group — 2019 – 2021

Shift Manager

- Coordinated the shift in the warehouse area: goods receipt, picking and dispatch.
- Planned delivery routes and settled drivers' route completion.
- Maintained logistics and warehouse documentation.
- Ensured on-time deliveries, order and safety on the shift.

Komfort S.A. — 2019

Deputy Store Manager

- Delivered the store's sales targets and advised customers on product choice.
- Handled orders and sales documents, staying in touch with customers until delivery.
- Prepared promotional campaigns and in-store displays.
- Deputised for the store manager in organising the team's work.

Auchan Retail Poland — 2016 – 2018

Manager

- Managed seasonal departments: assortment, orders and merchandising.
- Budgeted and monitored department results, with year-on-year sales growth.
- Recruited, trained and developed the team.
- Prepared the store for seasonal campaigns together with other departments.

SIDE PROJECTS

Bourbon Hunters — Mobile app: snap a bottle → AI reads the label, gathers description, price and rating, and cuts out the photo into a shared catalogue. PWA + Android.

PokerHouse Trainer — Tournament poker trainer: Nash + ICM engine in Python, push/fold charts, hand analysis and an AI assistant.

PriceShift — Browser extension: one-click Allegro ↔ Amazon.pl price comparison with AI product matching.

EDUCATION

Master of Philosophy, specialisation: logic — John Paul II Catholic University of Lublin, 2011
